Hey Ishan,

As you may already know, Security and Legal have been working on an ongoing company investigation our asset listing process. I'm helping to coordinate in-person meetings with our Legal folks, and as someone who can provide a lot of insight into how do asset listings, they would like to meet with you **Monday, May 16 at 1:30 PM PDT** at the Seattle Landing Pad.

A few logistical notes:
- I'd recommend blocking off about 4 hours for this session, just to be on the safe side don't think the actual discussion will take t long, but we want to make sure we're allo some schedule slippage as w 07:51
